- Figma
- dbdiagram.io
- GitHub
- Canva

soft skill

- Team Collaboration
- Communication
- Adaptability
- Hard Work

I am looking forward to my first job experience.

THONG VATHANA

Information Technology Engineering (Student)

ABOUT ME

I'm a passionate Information Technology Engineering student with skills in backend development and REST API integration. I enjoy solving problems using code and have experience building web systems with Laravel and ReactJS. I'm eager to grow as a developer and contribute to real-world projects through internships or junior developer roles.

EXPERIENCE

Academic Projects

- **Sales Management System**

School Project – Feb - Jun 2025

Full-stack system with Laravel RESTful API and ReactJS, Tailwind CSS. Integrated with MySQL and JWT authentication.

- **Phone Shop**

School Project – Oct 2024 - Jan 2025

RESTful APIs with Laravel for managing products and built responsive UI.

- **Library Management System**

School Project – Second Year

Java-based application using MySQL and Docker to manage book inventory and transactions.

Volunteer Teacher

Online Teaching – Aug 2023

Teaching basic programming language C, C++.

Freelance Developer

- **School Management System**

Backend APIs developed with Laravel for student enrollment, attendance, and grading systems.
